TERMS

Prices subject to change without notice. Prices are F. O. B., Shelocta, Pa.

All orders must be accompanied by cash or a 25% deposit with the remainder due prior to shipment, or the balance will be shipped C. O. D.

Our liability ceases when trees are delivered to carrier. If breakage occurs or if stock suffers thru delay in transit claims should be made on the transportation company immediately.

All prepaid orders will be packed free of charge. Our free packing is your discount—Except;

Our prices are subject to 5% discount on quantities of 25,000 or more.

Orders are filled in the order they are received unless a shipping date is specified. We reserve the right to cancel orders if necessitated by weather conditions or for any other reason beyond our control.

Picture Above Shows Seed Beds of
2 Year Old Scotch Pine.

A hand-drawn map of the Blairsville area in Georgia. The map shows a network of roads connecting several towns and landmarks. Key features include:

- Towns and Locations:** Kitzaning, Sheloeta, Indiana, Homer City, Saltzburg, Blairsville, Greensburg, and Ebensburg.
- Roads:**
 - Rt 66 (top left)
 - Rt 28 (left of Kitzaning)
 - Rt 422 (between Kitzaning and Sheloeta)
 - Rt 156 (between Sheloeta and Saltzburg)
 - Rt 380 (left of Saltzburg)
 - Rt 80 (between Saltzburg and Blairsville)
 - Rt 22 (between Blairsville and Greensburg)
 - Rt 30 (bottom left)
 - Rt 119 (multiple segments connecting Kitzaning, Sheloeta, Indiana, Homer City, and Greensburg)
 - Rt 85 (top right)
 - Rt 722 (between Sheloeta and Indiana)
 - Rt 422 (between Indiana and Homer City)
 - Rt 711 (bottom right)
 - Rt 271 (bottom right)
- Landmarks:**
 - Canale's Forest Nursery (near Sheloeta)
 - World's Christmas Tree Center (near Indiana)
- Directions:**
 - To Pittsburgh (near Greensburg)
 - To Johnstown (near Homer City)
 - To Ebensburg (near Blairsville)
 - To Dunwoody (near Indiana)

When and How To Plant Trees

Experience has taught us that best results are usually obtained from Spring planting, March 25 to May 15. Our earliest shipping dates in the past as governed by the weather has been the last week in March. Although Fall planting is sometimes satisfactory we don't recommend it and do not take seedling orders for Fall shipment.

Take care of your Nursery Stock immediately upon its arrival. If possible plant at once when you receive shipment. Roots should not be exposed to sunlight or drying winds. If weather is too cold for planting put the box or bundle in a cool but frostproof cellar and moisten roots. If you are not ready to plant, heel stock in the ground. Heel in your trees in a place where they will have protection from the sun and wind, a place convenient to the planting site and if possible in a shaded location such as the north side of a building or woodlot. Dig a trench deep and wide enough to hold the roots without crowding. Place the roots in the bottom of the trench and spread out the trees so the dirt can be filled in about the roots to exclude air. Then heap more soil on the roots to cover roots completely and pack firmly. If ground is too dry moisten the dirt about the roots.

It is not necessary to prepare the soil in any way before planting, as the additional expense is not justified and we find that grass and weeds prove a benefit in conserving the moisture and a shade during the first few years after planting. Do not use any kind of fertilizer on the soil. Immerse roots of trees in a bucket of soupy mud to keep the roots from drying out. Dig a hole deep enough to accommodate the roots and firmly pack the soil around the roots. When trees are planted too close together, they crowd and the resulting competition speeds the height growth and tends to make a poor Christmas tree. Spacing trees 4 by 4 ft. requires approximately 2700 per acre and can be used where thinning is contemplated at an early age; 5 by 5 ft. require approximately 1700 and is most generally used as it allows for thinning and will still leave a good stand for timber; 6 by 6 ft. requires approximately 1200 per acre and is recommended where trees are planted for forest products and no early thinning is to be done.
